

FIRST ANNOUNCEMENT

WORKSHOP ON FREQUENCY POLICY AND SPECTRUM ENGINEERING

08-09 September 2016
Wrocław (Poland)

Join us at the 2016 Frequency Policy And Spectrum Engineering Workshop which brings together professionals, experts and leaders throughout Europe. Our goal is presenting, discussing and proposing solutions for future broadcasting and mobile networks, audio and video content delivering as well as highlighting potential of future spectrum policy and engineering possibilities. The workshops provides in-depth look into technical and regulatory framework aspects.

We invite policy-makers, broadcasters, mobile operators, engineering service providers, researchers, technology developers, equipment manufacturers and consultants.

The workshop is organized within EMC Europe 2016 Wrocław Conference. Two day workshop fee, covering participation, coffee breaks and lunches, is 100 EUR.
